

Defence & Security

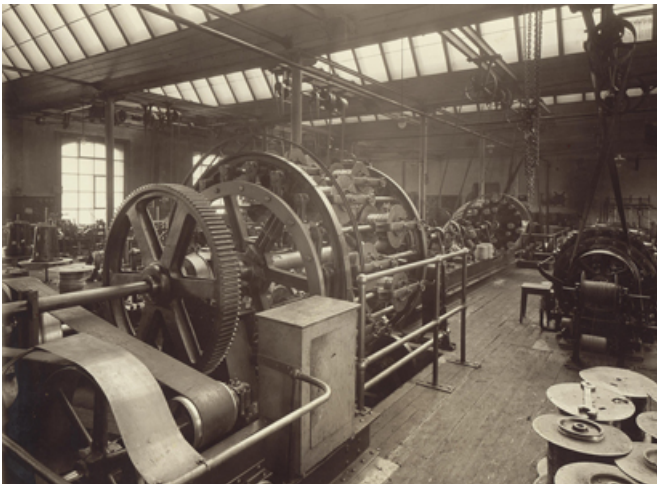

Welcome to Brugg Cables

Brugg Cables is an international well known manufacturer and supplier for high voltage cables, high voltage accessories low and medium voltage cables and corresponding accessories, flexible industry cables, fiber-optic cables, cable assemblies, security and sensing systems, coated transmission belts and many more products. The high quality and the excellence of our products and services are appreciated all over the world.

Background

Brugg Cables is looking back to a history of more than 110 years in cable manufacturing. Since it's founding in 1896 our company has benefited from the knowledge and skills of very many people. This huge accumulated knowledge base enables us today to offer all the relevant services with experience and expertise in combination with our specialty cables.

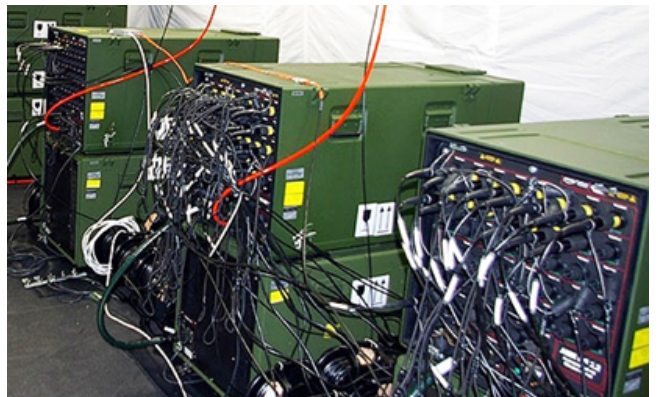

Defence & Security

In the military environment, maximum requirements are placed on mobility, reliability and robustness of the information systems. We offer the necessary expertise and products together with tempered housing for the COTS equipment to connect these systems according to the necessary requirements in every aspect.

We have decades of experience in the production and pre-assembling of cables. Our fiber-optic and copper cables for data transfer as well as for electrical power distribution are extremely sturdy and have withstood the test of time in applications under harsh field conditions. Constantly on the lookout for new, innovative solutions, we develop state-of-the-art, mobile cable systems and devices tailored to our customer's requirements. We concentrate on ease of handling, minimum maintenance, low susceptibility to repair and efficient logistics. The result is a range of high-quality, holistic solutions for fiber optic-based transmission and distribution of data.

Quality and Environmental Management System

A Quality Management System complying with ISO 9001 and ISO 14001 governs the quality of our products and processes. Continuous improvement has led to a high quality level and a more effective and efficient partnership with our customers.
