

Separable Connectors

Blue Connect® BFR 72.5 kV

Dimension in mm

* Included in BFT scope of supply.

Highest Voltage (Um)

72.5 kV

Max. Cross Section

1200 mm²

Cable Insulation Ø

39-68 mm

Rated Current

1250 A

Weight

6 kg

Engineered for Reliability

Blue Connect® BFR is a fully screened 72.5 kV rear connector, combining type-tested performance, robust LSR insulation and a modular design for dependable offshore and onshore cable connections.

Modular Expansion

Rear-connector design enables flexible system extension and integration of additional components such as surge arresters.

Offshore Ready

Durable LSR insulation withstands humidity, salinity and vibration for reliable performance in demanding offshore and onshore environments.

Easy Installation

Separable plug-in design simplifies assembly and supports fast, reliable installation with only a few installation steps.
